

Mike Paredes is the President of Gauge, an Indianapolis-based provider of cloud-based asset management solutions.

Paredes is a senior executive and entrepreneur with over 25 years of experience in the electronics and telematics industries. Throughout his career, he has successfully managed, developed, and marketed various technologies for consumer and commercial markets.

Expanding on his telematics and consumer electronics background, he formed Gauge Telematics in 2009 with a goal to develop a single platform to consolidate multiple telematics systems specifically for mixed fleet operations. Today, Gauge's Smart Hub product is enabling fleet operators to improve operational efficiencies, implement effective preventative maintenance programs, and increase asset utilization.

Before founding Gauge Telematics, Paredes was the Vice President of Operations for Earthwave Technologies and prior to 2000 he held a variety of executive positions in the mobile electronics industry.

Paredes has served on various industry boards and committees and is widely known and respected in the construction and telematics industries.
